

South Elementary School Technology User Agreement

The Chromebooks and other technology you are using at South Elementary are a great privilege and responsibility. It is expected that you use all technology with respect. As a student at South Elementary you have a very important job to be sure to use the computers, the internet and network the right way following school rules and expectations.

This means:

I will follow rules and expectations for using the computers in every class.

I will use school technology for educational purposes only.

I will go to websites only approved by my teachers.

I will be gentle with all technology.

I will use only my user name and password for all accounts.

I will not give my log in information to anyone.

I will work only in my own accounts.

I will tell my teacher immediately about any problems with the computer.

I will report any inappropriate computer use immediately.

I will not have food, drink or gum near the Chromebooks.

I agree to follow these rules and the rules of the school and my teacher while using the Chromebooks and technology at South Elementary School.

Please print and sign your name below to indicate you understand the expectations in the Technology User Agreement.

Dear Parents and Guardians,

It is a very exciting time at South Elementary! The students at South Elementary School have an excellent opportunity to have technology be a part of their everyday school life. Due to the hard work of many people, students in grades 3-5 will have access to Chromebooks on a one-to-one basis. This enables their teachers to more easily integrate technology skills into their daily lessons as Common Core requires. It also enables your child to be prepared for an increasingly technological world. It allows your student daily access to many educational products and programs available and in use at South.

With this access to the Chromebooks and technology at South comes responsibility. In order to ensure the safety of students and the equipment they will be using we have developed a Technology User Agreement. The students and I will review and discuss the Technology User Agreement so that all students clearly understand the great opportunity they have and the responsibility that comes with it.

Please sign below to indicate that you have read and understand the expectations for your child in the Technology User Agreement.

Please sign and return to school.
